

Additional Benefits and Features

The InR 401(k) plan with Vanguard® provides full disclosure/transparency of all fees to participants and could be a lower cost alternative than the current plan. The Vanguard® Funds selected by the InR 401(k) help keep the underlying investment costs and fees from “*eating-away*” your employee’s investment returns!

InR’s local approach combines traditional business standards, values and ethics with 21st Century technology to communicate and administer 401(k) plans.

The InR enrollment team assists and advises company employees individually and collectively in meeting their savings and retirement objectives.

As a Chamber member benefit InR offers at no charge, a review of the costs associated with the Company’s current 401(k) plan. Some of the costs that will be analyzed and included in the comparison report will include:

- Existing Administration and Recordkeeping fees presently charged
- Current Investment Management Fees and Charges on underlying investments
- Custodial fees

Contact a InR today find out more about InR401K Plan at (610) 891-1677.
